PROJECTS

EASYPRESS.AI (CONTENT CREATION BY OPENAI)
Link:// Easypress.ai
Technologies: Laravel, Livewire, Tailwind, Filament, OpenAI
- Developed a platform for efficient digital content creation and management. It includes scheduling for auto-posting to WordPress and social media.
- Enabled automatic generation of articles and social posts according to frequency settings. Content generation is done by OpenAI, Replicate, and Dreambooth APIs.

STAMPBOX (MARKETPLACE FOR STAMPS)
Link:// Stampbox
Technologies: NuxtJS, Laravel, Firebase, Stripe-Connect, EasyPost, MySQL

- Led a team of developers in the creation of a feature-rich multi-vendor eCommerce marketplace for the buying, selling, trading, and auctioning of stamps.
- Designed project database ERD and activity diagrams for optimal functionality and developed efficient restful APIs using Laravel and MySQL.

AFP DASHBOARD (E-COMMERCE SOLUTION FOR MULTIPLE MARKETPLACES)
Link:// AFP Dashboard
Technologies: Laravel, VueJS, MySql, Walmart, eBay, Sears APIs
- Designed and optimized a custom dashboard in Laravel for managing products, inventory, and orders across eBay, Walmart, and Sears.
- Integrated various marketplace APIs (eBay Seller Platform, Walmart Seller Platform, Sears API) to ensure seamless data synchronization.

EXPERIENCE (5 YEARS)

EASYPRESS | Technical Team Lead
Apr 2023 – Jul 2024 | Remote
- Led a team of developers, reviewed their pull requests, and provided constructive feedback.
- Wrote unit and feature tests in PHP Pest. Handled both front-end and back-end development of SaaS-based applications for content creation using OpenAI.

PIXARSART | Back-End Team Lead
Oct 2020 – Mar 2023 | Lahore, Pakistan
- Reduced the manual efforts of the building and deployment process by 90% for the backend team by implementing CI/CD of various projects.
- Participated in sprint planning meetings and primarily focused on backend development, with some involvement in front-end development.
- Managed customer AWS accounts and oversaw project deployment and management on AWS.

XEFFECTSTUDIO | Full Stack Software Engineer
May 2018 – Aug 2020 | Lahore, Pakistan
- Extended pre-made PHP/Laravel scripts with expert proficiency, modifying existing modules and integrating new features.
- Created visually stunning and user-friendly front-end applications in Bootstrap, VueJS, and jQuery
